Product Description

Product introduction:

The fake sun flowers series is a high-end plant product with multiple sizes and shapes available. Its uniqueness lies in the exquisite production of silk flowers and embedded wire branches.

Product Feature Details:

High-quality materials: The combination of silk flowers and wire branches ensures a highly realistic appearance and long-lasting durability.

Diverse choices: fake sunflowers that look real come in multiple sizes and shapes to meet different scenes and individual needs.

Washable performance: Unique washable design, highly simulated plants can be washed without fading, keeping fresh for a long time.

Handmade: realistic fake sunflowers are carefully handmade, with natural color transitions, and each flower is unique, showing artistic quality.

Performance Highlights:

The most realistic artificial sunflowers series performs well in shopping malls, homes, restaurants and cafes. The high degree of simulation, water-washability and handcrafting ensure that the product can continue to show its natural beauty in different environments and add color to the space.

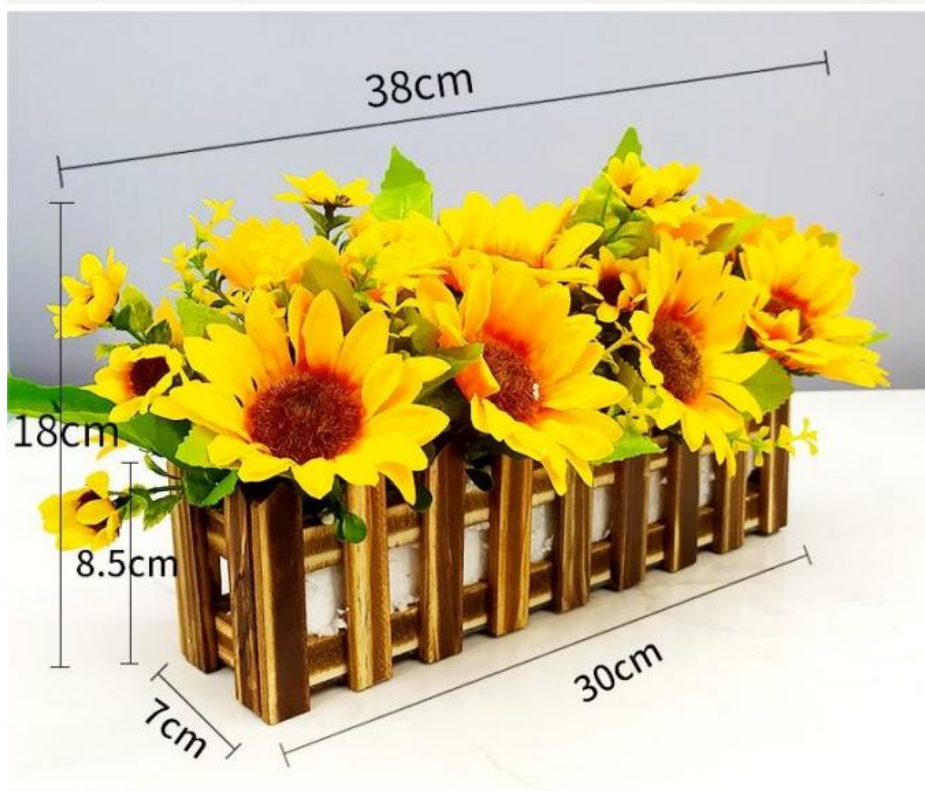

Product name	Simulated sunflower series set
Material	Silk flower branches embedded with wire
Applicable scenarios	shopping malls, home restaurants, cafes
Washable	Highly simulated plants can be washed without fading

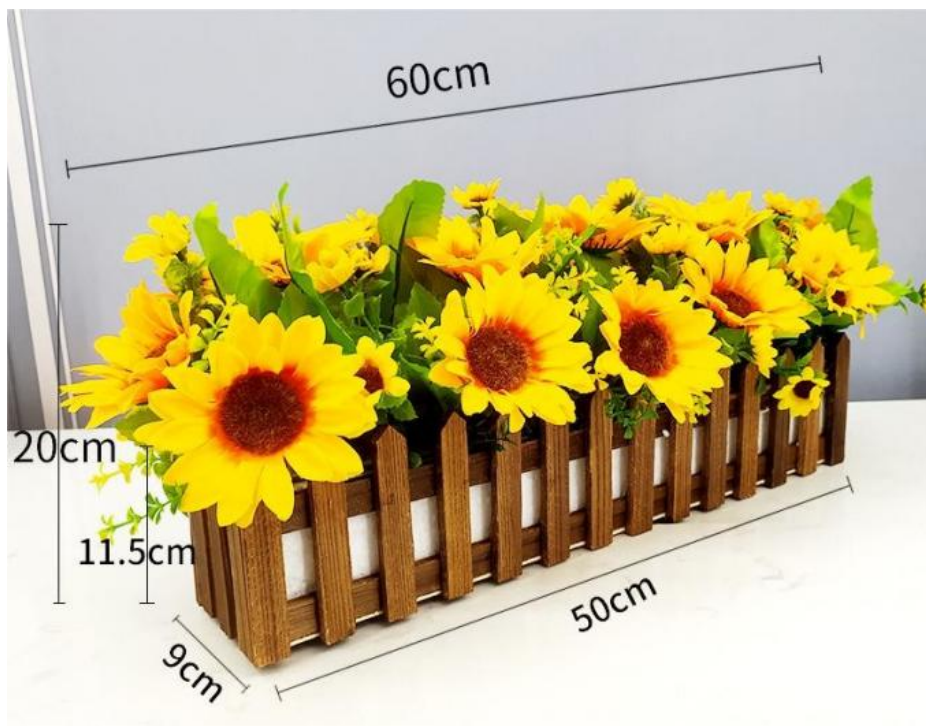

TIPS

1. The artificial flowers are handmade, there are minor differences in workmanship and measurement, the actual product shall prevail.
2. Simulated flowers are different from real flowers. The glue silk (the twisted wire can be cleaned) and burrs left during the production are normal phenomena and do not affect the overall normal use.
3. Due to logistics reasons, bending may affect the shape. The included iron wire can be adjusted left and right to adjust the position of the flower head.
4. Avoid placing it in an environment with lots of dust or oil.
5. If there is an odor after unpacking, it is normal. You can place it in a ventilated place to disperse the smell.
